Subject: Response to NIEHS Article on Enlist Duo
Attachments: NIEHS article edits.doc

Importance: High

Jim, our response/edits to the NIEHS article is due this Tuesday the 16th to the reporter.

I want to get our response to OPS on Monday, if possible, to allow time for back-and-forth.

Here are edits to the article, including an up-front piece. Most of our responses are noted in the beginning (about the SF) and at toward the end (in the EPA section) of the article vs. refuting every topic through-out.

Did you chat with Tom R. about this? Press office call their press office? I know next week is busy climate week.

Linda
